### **BNT PRO, Istanbul-Turkey**

07/2023 – 08/2023

Full Time Intern

- Gained hands-on experience in Linux system administration and basic cybersecurity practices.
- Assisted with configuring systems and conducting security assessments.

## PROJECTS / CERTIFITACES

### **Mobile Messaging App**

Developed a mobile messaging app with full-stack implementation. Designed and built both frontend (React Native) and backend (MongoDB).

- Implemented secure user authentication and real-time messaging features
- Deployed and tested on both Android and iOS platforms.

### **Civil Involvement Project (CIP101)**

Engaged in mentoring primary school students from socio-economically disadvantaged areas near Sabancı University.

- Led activities promoting children's rights, communication skills, creativity, and self-confidence.
- Facilitated workshops and interactive sessions to enhance students' personal development.

### **Disaster Relief Logistics Research (PURE Program)**

Conducted research to optimize disaster response management processes under Sabancı University's PURE initiative.

- Enhanced efficiency in donation collection and distribution strategies.
- Conducted surveys, social media analytics, and official news media reviews for comprehensive data collection.
- Performed post-response beneficiary satisfaction assessments to ensure actionable insights.

**CAKUF Certificate of Participation** – Participated in Cakabey National Forum as an organizer, contributing to event planning and coordination.

**FLL Certificate of Participation** – Participated in First Lego League as a team member, focusing on collaborative problem-solving and robotics

**Certificate of Achievement** – Ranked in the Top 10 as a group in Türkiye Zeka Vakfı (Turkish Intelligence Foundation) interscholastic competition in high school.
